JAPAN'S METALCORE OUTFIT CROSSFAITH ANNOUNCES HYPER PLANET 2025 FESTIVAL LINEUP

UNDEROATH, ENTER SHIKARI, WARGASM, PALEDUSK, SIM, + MORE TO APPEAR

Formed in Osaka, Japan in 2006, CROSSFAITH have represented the very best of what Eastern metalcore has to offer each year since. Combining their heavy roots with their love of electronic and dubstep elements, the band has solidified a space in the hearts of millions by meeting and surpassing the expectations of genre purists everywhere.

In their mission to spread the love of live music, CROSSFAITH proudly present the HYPER PLANET 2025 Festival — a celebration of musicians performing their respective crowd favorites on Sunday, February 2. HYPER PLANET will take place at Japan's largest convention center, Makuhari Messe in the 7-8 Hall, and will host bands including but not limited to: Enter Shikari, Underoath, Wargasm, Paledusk, and more.

"From the moment we started Crossfaith, hosting our own festival has always been one of our biggest dreams. With HYPER PLANET, a festival we are proud to host, that dream is now coming true," says Crossfaith's **Kenta Koie**.

He continues, "This will be a place where artists from around the world, Japanese artists, and people who resonate with music can unite as one. HYPER PLANET breaks the boundaries of traditional rock festivals by featuring music that has shaped us — genres like hip-hop, electronic and more. Here, you'll experience a world where music knows no borders."

Koie finishes, "We are pouring everything into this festival and truly hope the movement we create will reach not only Japan but expand and evolve globally too!"

With multiple nominations over the years for being the Best International Band, CROSSFAITH remain a fixture in the music community and strongly believe in bringing the best bands to every music fan, no matter the destination, and this mentality has brought them around the globe to share the very best from their catalog of five studio albums. So, armed with metalcore favorites and their own tricks up their sleeve, join CROSSFAITH in Japan this February to honor some of the very best to grace the stage.

MORE ABOUT CROSSFAITH:

"Playing heavy music is how I feel alive," says singer Kenta Koie. "We want Crossfaith to be the band making music that no one has ever heard before. Crossfaith formed in 2006 and released their debut album *The Artificial Theory for The Dramatic Beauty* in 2009, followed by *The Dream, The Space* (2011), *Apocalyze* (2013), *Xeno* (2015), and *Ex Machina* (2018). Each one saw the band blend its love of punk rock, metal, and electronic music in daring new ways. "Good art is how I express myself to other people. It's hard to talk from the bottom of my heart, that's why I write these songs," Koie says. In keeping with their progressive musical journey, 2020's *SPECIES* EP saw the band continue to push their own sonic soundscape to new grounds. The band dropped the pandemic-penned single "Gimme Danger" in 2022.
