DUAL-VOCAL ALT MODERN ROCK BAND LYLVC ARE BACK WITH A NEW SINGLE

BAND SHARES LYRIC VIDEO FOR "XXX" — [WATCH](#)

CURRENTLY TOURING WITH A KILLER'S CONFESSION + GEMINI SYNDROME'S AARON NORDSTROM

Alt band **LYLVC** (pronounced "Lilac") have returned with one of the most tempting rock songs they've ever crafted with "**XXX**."

Dual-vocalists **Alyse Zavala** and **Oscar Romero** are showcasing their best, most complimentary give-and-take of their careers, producing some of the most melodic hooks and heavy-hitting surprises they've released so far.

On their explicitly titled, "XXX," Zavala offers, "I think this song is soooo sexy... I wanted to write the lyrics from the perspective of a woman who is so powerful that she feeds off of the sexual energy of all her followers. The sex is so good that it messes with their head and they won't realize it until it is way too late and they are too addicted to leave. I purposely made the chorus into a chant so that everyone can feed off the energy and feel the air in the room tighten together. This winter release is about to get HOT!! XOXO."

For a high-energy show that is only matched by the band's flair for technological expertise in visuals, you can catch LYLVC on the road this December in the U.S. with A Killer's Confession and Gemini Syndrome's Aaron Nordstrom. The band will also serve as the special guest on the epic Life of Agony x Biohazard co-headline tour of Europe in February and March. All dates are below.

As Zavala is a professional hacker, her dedication to utilizing every tool at her disposal to create an unforgettable live performance, creates a supremely futuristic atmosphere that is truly something to behold.

Don't say we didn't warn you — LYLVC are out to prove that hard work translates into perfected results. Strategic, charismatic, and multi-talented, the members of LYLVC simply have a bit more to offer than the average rock artist.
