

This holiday season, The Velveteers are sending “a big f*ck you to the ongoing cesspool of men who are unable to take any accountability for their actions.”

The Colorado trio – featuring two drummers playing a conjoined kit – will return tomorrow (December 19) with the new original song/video “On And On.” You can preview it here: https://www.youtube.com/watch?v=Sp_XGYCdm5A

“I always wonder if there will be a day when I won’t feel the need to write about this subject,” says tour-de-force frontwoman Demi Demitro of penning “On And On.” “But unfortunately misogyny is far too rampant in the music industry and I refuse to put up with it.”

The Velveteers’ new album *A Million Knives* comes Valentine’s Day 2025 on Easy Eye Sound. It’s the culmination of a period that’s seen the group penetrate through rock and roll’s old guard (opening arena shows for artists like Guns N’ Roses and Smashing Pumpkins) to offer fresh perspective as a non-binary, queer and female-fronted group in the genre.

Would love to see what you think of working together here!
