"When I joined the band in early 2006, I often spoke about how I'd love to do vocals on a studio recording of *Thrill Seeker*," says Luhrs. "I did the majority of the touring on the album and always felt a deep connection to it. As the 20 year anniversary of the album approached, we decided to finally give *Thrill Seeker* a facelift. It was such a rewarding experience to dust these songs off and give them new life. This album changed the course of my life and I can't wait for fans to hear this."
