5/21 — Charlotte, NC — The Underground
5/23 — Norfolk, VA — The Norva
5/24 — Pittsburgh, PA — Mr Smalls Theatre

Taking all creative matters into their own hands, the Southern California quartet self-produced and engineered all of the songs on *Tether*, their astonishing eighth album. Pauley mixed and mastered the album, while Arteaga designed and painted the album's artwork. As a legion of devoted listeners worldwide has come to expect, guitarists Phil Manansala and Alan Ashby, Aaron, and Tino poured their hearts and souls into every note, creating another sonic document of their lives.

"With this one, we weren't really focused on how it sounded as much as we focused on how it *felt*," Pauley explains. "And that's a weird thing to do when all you're working with is sound. But that was really the goal. And we walked away from making it, feeling like we've accomplished that."

OM&M take sobering looks at depression, anxiety, loneliness, and existential dread, powering through the darkness, and emphasizing the importance of creativity as a balm for mental health. A commanding tempest of sounds coalesces within Of Mice & Men, blending the uplifting eloquence of modern active rock with the atmospheric

dissonance of experimental post-rock. The band first emerged as part of a vanguard of future aggressive rock hitmakers. Over the years, they've distinguished themselves with musicality, creative ambition, and resilient determination.

Album eight was no less ambitious. *Tether* is anchored by a reflective meditation on what it means to draw together as friends, family men, artists, and bandmates. What does it mean to be there for the people who depend on us, knowing we can't fully protect them from the hardships of life?

The Of Mice & Men core since 2016 – Aaron, Alan, Tino, and Phil – maintain a powerful bond with their audience and each other, no matter the obstacles. Whether a powerful anthem or atmospheric confession, their songs translate in intimate clubs and massive festivals. "It's about creating moments for people," Pauley says. "Music is the soundtrack to people's lives."
