

[LISTEN TO "NO REVIVES" + "BREATHING NAPALM"](#)
SHARPTONE WELCOMES PSYCHO-FRAME TO THE ROSTER

BAND DROPS DOUBLE SINGLE *FEED* WHICH INCLUDES THE SONGS "NO REVIVES" + "BREATHING NAPALM" — [WATCH + LISTEN](#)

SharpTone is pleased to announce it has signed PSYCHO-FRAME to its roster.

Today, the band has shared [the FEED double single](#), featuring the songs "NO REVIVES" + "BREATHING NAPALM." Watch and listen [here](#).

"'NO REVIVES' is a high-paced track containing all of the elements that have defined PSYCHO-FRAME thus far, sonically consisting of innate technicality and crushing heaviness," the band says. "The song focuses lyrically on destroying narcissistic thought patterns and eliminating an ego that would convince someone they are above others."

Viscerally technical, crushingly heavy, PSYCHO-FRAME are a band comprised of several veterans of metal's various subgenres with a purpose of creating aggressive and immolating music. Emerging onto the scene with debut single "24 Hours Left" in April of 2023, Psycho-Frame referred to themselves as the last deathcore band — a legacy they continue to uphold with the release of two highly acclaimed EPs, *Remote God Seeker* in May 2023 and *Automatic Death Protocol* in December 2023. Vocalist Michael Sugars is also formerly of the band Vatican.

Since then, the band have hit the road, touring alongside Balmora (Ephyra), Dying Fetus (Relapse Records), SPITE (Rise Records), and more, refusing to limit their exposure and influence to the realm of contemporary deathcore. In a short period of time, Psycho-Frame has solidified their place in the underground music community. Combining consistent intensity with a captivating live performance and an aesthetic that pulls from retro sci-fi, horror and anime to complement the chaos of their sound, the band will settle for nothing less than total domination.

PSYCHO-FRAME ARE:

Michael Sugars — Vocals
Hunter Young — Guitar + Vocals
Aiden 'Dave' Bessent — Guitar
Jordan Crain — Guitar
Colter Cuthbertson — Vocals
Leo McClain — Drums
