NORWEGIAN PROGRESSIVE METAL MASTERS RENDEZVOUS POINT SHARE SINGLE " STILL WATER" (FT. THE NORWEGIAN RADIO ORCHESTRA)

European tour with TEMIC in March

Norwegian Progressive Metal masters **Rendezvous Point**, around Leprous' drummer **Baard Kolstad**, have teamed up with **Kringkastingsorkesteret** aka **The Norwegian Radio Orchestra** to record a reworked version of their song "**Still Water**."

"KORK are super experienced in accompanying bands, so when we had the opportunity to do something together with them we just had to take it," says the band. "We chose to do a new live-in-studio version of Still Water, dedicating more focus to the symphonic parts than on the album version. We are very excited about the result, and hope you enjoy it as much as we do! The song is an epic crescendo which encapsulates the moment between life and death. The moment where everything is silent and hopeless, but also a blank sheet of paper for a new beginning. In the realm of giving up, something or someone can drag you back to life. It's never too late to search for help."
