*FESTIVAL DATE

Sleep Theory combine energetic hard rock and metalcore, alongside the powerhouse vocalist Cullen Moore. Praised by Jelly Roll and David Draiman, they've toured with Shinedown, Falling In Reverse, and Beartooth. In under two years, they became the fifth most-played artist on Active Rock radio. *Afterglow* and the *Paper Hearts* EP merge heavy rock with pop and R&B, producing anthemic bangers and emotional ballads. Saluted by *Revolver*, Loudwire, and Amazon Music as an Artist to Watch in 2025, they've become one of heavy music's biggest breakouts. With *Afterglow*, the quartet proves ready to ascend to the next level.
