NEW MODEL ARMY RELEASE NEW SINGLE "POISON STREET"— [LISTEN](#)

THE FULL ALBUM *LIVE SO36* IS RELEASED MARCH 28

"**Poison Street (Live at SO36)**" is the second single before **New Model Army's** forthcoming ***Live SO36***, arriving March 28.

Raw, unfiltered, and brimming with energy, the album showcases New Model Army at their most visceral. The performance features fan favorites like "**Poison Street**," alongside rarer tracks the band has never performed live before, spanning various eras of their extensive history. This live album serves as a companion piece to their 2023 release, ***Sinfonia***, recorded just the day before.

"When the idea of doing a New Model Army concert with a full orchestra at Berlin's magnificent Tempodrom venue was first floated, we had a thought: That if we were going to do something so extravagant, we should also do the exact opposite on the same weekend. So, we booked the following two evenings at Berlin's legendary Punk Rock sweatbox, the SO36 in Kreuzberg, and returned to being the simplest, stripped down version of New Model Army we could be — without orchestra, keyboards, or double drums," the band says.

NMA continue, "Over the two nights, we performed 38 different songs (to add to the 21 performed with the orchestra), with the intention that the weekend should be seen as a whole. The *Sinfonia* project, in all its magnificence, was released in 2023. Now, at last, comes the sweaty, full on rock 'n' roll. Both nights were recorded although only the first was filmed. Here it is!"
